UC001	N21-27263	Checking the attributes are not displayed		https://ira.factery.eu/airbus.corp/8443/browse/N21-27263	Spécifie			
UC002	N21-27263	Attributes Orders		https://ira.factery.eu/airbus.corp/8443/browse/N21-27263	Spécifie			
UC003	N21-27263	Instantiation SPN (HW / SW)	Under EM	https://ira.factery.eu/airbus.corp/8443/browse/N21-27263	Identifie			
UC004	N21-27263	Attribute SAJ hidden at creation		https://ira.factery.eu/airbus.corp/8443/browse/N21-27263	Spécifie			
UC005	N21-28174	Attach QSD Documents		https://ira.factery.eu/airbus.corp/8443/browse/N21-28174	Spécifie			
UC006	N21-28174	Selection Fields		https://ira.factery.eu/airbus.corp/8443/browse/N21-28174	Spécifie			
UC007	N21-28174	Attach PTS Document and Synchronise Attributes		https://ira.factery.eu/airbus.corp/8443/browse/N21-28174	Spécifie			
UC008	N21-28174	Synchronize PTS Document with new revision		https://ira.factery.eu/airbus.corp/8443/browse/N21-28174	Spécifie			
UC008	N21-28174	Promoting the SPN to frozen (hardware/software)	QSD Doc is in Released status = SPN object can be promote to frozen	https://ira.factery.eu/airbus.corp/8443/browse/N21-28174	Identifie			
UC009	N21-27958	Applying Instance/Reference modifications on Fasteners, both on EM -1 and EM -2		https://ira.factery.eu/airbus.corp/8443/browse/N21-27958				
UC010	N21-27958	Attributes Check, Fastener - 2 attributes not able to be modified and the instance Status set to NA		https://ira.factery.eu/airbus.corp/8443/browse/N21-27958				
UC011	N21-27958	Attributes Check with Sheet Editor		https://ira.factery.eu/airbus.corp/8443/browse/N21-27958				
UC012	N21-27958	Create a Fastener under another Fastener		https://ira.factery.eu/airbus.corp/8443/browse/N21-27958				
UC013	N21-28110	After symetric Attribute Inherit (YES/NO) all LLE - instance		https://ira.factery.eu/airbus.corp/8443/browse/N21-28110	Spécifie			
UC014	N21-28110	After symetric Attribute Update (YES/NO) all LLE - instance		https://ira.factery.eu/airbus.corp/8443/browse/N21-28110	Spécifie			
UC015	N21-28110	After symetric Attribute Modifiable Manually all LLE - instance		https://ira.factery.eu/airbus.corp/8443/browse/N21-28110	Spécifie			
UC016	N21-28110	After symetric Attributes Present on all LLE - instance		https://ira.factery.eu/airbus.corp/8443/browse/N21-28110	Spécifie			
UC017	N21-28110	command synchro is waiting for instance		https://ira.factery.eu/airbus.corp/8443/browse/N21-28110	Identifie			
UC018	N21-28110	pas de regression pour reference		https://ira.factery.eu/airbus.corp/8443/browse/N21-28110	Identifie			
UC019	N21-28110	check Lower Level Entity objects where the Symmetry is allowed		https://ira.factery.eu/airbus.corp/8443/browse/N21-28110	Spécifie			
UC020	N21-28166	Data creation		https://ira.factery.eu/airbus.corp/8443/browse/N21-28166	Spécifie			
UC021	N21-28166	Check creation of new design check for both organization		https://ira.factery.eu/airbus.corp/8443/browse/N21-28166	Spécifie			
UC022	N21-28166	Promote/Demote DFM/Data Drop data with Design check OK		https://ira.factery.eu/airbus.corp/8443/browse/N21-28166	Spécifie			
UC023	N21-28166	Promote/Demote DFM/Data Drop data with Design check KO		https://ira.factery.eu/airbus.corp/8443/browse/N21-28166	Spécifie			
UC024	N21-28166	Check that Design check should be up to date to promote		https://ira.factery.eu/airbus.corp/8443/browse/N21-28166	Spécifie			
UC025	N21-28166	Check that business type concerned are only EPISA/EHBT - HRN or VEU/ITubing		https://ira.factery.eu/airbus.corp/8443/browse/N21-28166	Spécifie			
UC026	N21-28166	Check if the position column exist and list corectly		https://ira.factery.eu/airbus.corp/8443/browse/N21-28166	Spécifie	Haute		
UC027	N21-28166	Check if the "Up" "down" and "Update" fecton work has intetected		https://ira.factery.eu/airbus.corp/8443/browse/N21-28166	Spécifie	Haute		
UC028	N21-28166	Check if the apply button is not usable if updates hasn't been click after the usage of up or down		https://ira.factery.eu/airbus.corp/8443/browse/N21-28166	Spécifie	Haute		
UC029	N21-28166	Check if adding object without position value work	when added the position value is blank until the update button is cliked	https://ira.factery.eu/airbus.corp/8443/browse/N21-28166	Spécifie	Haute		
UC030	N21-28166	check and warning/error message if there is more than 999 object		https://ira.factery.eu/airbus.corp/8443/browse/N21-28166	Identifie	Basse	To see how to test it	
UC031	N21-28152	Data creation		https://ira.factery.eu/airbus.corp/8443/browse/N21-28152				
UC032	N21-28152	Check FTA naming rule		https://ira.factery.eu/airbus.corp/8443/browse/N21-28152				
UC033	N21-28152	Instantiation FTA under Undefined possible without checking Design Stage		https://ira.factery.eu/airbus.corp/8443/browse/N21-28152				
UC034	N21-28152	Check layout of the FTA		https://ira.factery.eu/airbus.corp/8443/browse/N21-28152				
UC035	N21-28152	Promote FTA EM-2 (under Undefined / SA / EH / Design Solution) possible without Quality Report		https://ira.factery.eu/airbus.corp/8443/browse/N21-28152				
UC036	N21-28152	Demote FTA EM-2 not possible if father is not "In Work" or "Private"		https://ira.factery.eu/airbus.corp/8443/browse/N21-28152				
UC037	N21-28152	If FTA is stand alone no possibility to promote		https://ira.factery.eu/airbus.corp/8443/browse/N21-28152				
UC038	N21-28152	No change for FTA EM-1 (Check that this is no regression)		https://ira.factery.eu/airbus.corp/8443/browse/N21-28152				
UC040	N21-28922	Check if Fastener (primary and secondary) should be reused from original (same position)		https://ira.factery.eu/airbus.corp/8443/browse/N21-28922	Spécifie			
UC041	N21-28922	Check if instance name of fastener are automatically calculated according existing naming convention	Check Naming rules for Fastners Symetry	https://ira.factery.eu/airbus.corp/8443/browse/N21-28922	Identifie			
UC042	N21-28922	Check if attributes are copied from original to the symmetrical instance (primary and secondary)		https://ira.factery.eu/airbus.corp/8443/browse/N21-28922	Spécifie			
UC043	N21-28922	Check if the secondary instance attributes are not editable so it is possible that no update is needed	Ask clarification with POs, Sean and discussed with Stephan	https://ira.factery.eu/airbus.corp/8443/browse/N21-28922	Spécifie			
UC044	N21-28922	Check if in any case, the final result should be that attributes are aligned		https://ira.factery.eu/airbus.corp/8443/browse/N21-28922	Spécifie			
UC045	N21-28165	Check promote/Demote instances, should be included in "Collaborative Lifecycle" app		https://ira.factery.eu/airbus.corp/8443/browse/N21-28165	Spécifie	Haute		
UC046	N21-28165	Check for FTA under EM, the promote of reference shall be done during instance promotion		https://ira.factery.eu/airbus.corp/8443/browse/N21-28165	Spécifie	Haute		
UC048	N21-28165	Check if an instance is already selected in the cad apps instance promote/demote, not possible to add an FTA part		https://ira.factery.eu/airbus.corp/8443/browse/N21-28165	Spécifie	Haute		
UC049	N21-28165	Check an FTA Part is selected in cad apps, not possible to add other instance for frozen		https://ira.factery.eu/airbus.corp/8443/browse/N21-28165	Spécifie	Haute		
UC050	N21-28165	Check if Report stored on FTA reference is OK, if not, error message: "Promote to Frozen not allowed. Quality report result KO."		https://ira.factery.eu/airbus.corp/8443/browse/N21-28165	Spécifie	Haute		
UC052	N21-28165	Check QC report is attached to the FTA and the last modification have been saved yes - promote the reference to Frozen and continue to step instance promotion		https://ira.factery.eu/airbus.corp/8443/browse/N21-28165	Spécifie	Haute		
UC053	N21-28165	Check QC report is attached to the FTA and the last modification have been saved, NO stop the Promote/demote instance tool with the error QC not attached or not up to date, please relaunch QC report		https://ira.factery.eu/airbus.corp/8443/browse/N21-28165	Spécifie	Haute		
UC054	N21-28165	Last instance modification of FTA is anterior to QC report generation date - yes=>promote to frozen and saved modification		https://ira.factery.eu/airbus.corp/8443/browse/N21-28165	Spécifie	Haute		
UC055	N21-28165	last instance modification of FTA is anterior to QC report generation date - no=> don't change the instance status and demote the reference		https://ira.factery.eu/airbus.corp/8443/browse/N21-28165	Spécifie	Haute		
UC056	N21-28165	Check the instance promotion/demolition shall be only possible from CAD Authoring app command "Promote/demote Instances". Demote of instances can be done only if the FTA instance & reference are "In work"		https://ira.factery.eu/airbus.corp/8443/browse/N21-28165	Spécifie	Haute		
UC057	N21-28165	Check demote instance/reference FTA, it shall be possible to demote only from "Frozen" to "In Work"		https://ira.factery.eu/airbus.corp/8443/browse/N21-28165	Spécifie	Haute		
UC058	N21-28165	Check if the command "Maturity" is used for the promotion, it asks for the report and it will allow to freeze only the Reference. But then if "Promote/Demote instances" is used to promote the Instance, user is blocked because Reference is not "In Work"		https://ira.factery.eu/airbus.corp/8443/browse/N21-28165	Spécifie	Haute		
UC045	N21-28168	Check for each user concerned that a QC Report KO doesn't block the promotion of EPISA/EH (HRN et VEU) Piping		https://ira.factery.eu/airbus.corp/8443/browse/N21-28168	Spécifie			
UC061	N21-28168	Check for another user that a QC report KO block the promotion of EPISA/EH/Piping		https://ira.factery.eu/airbus.corp/8443/browse/N21-28168	Identifie
